

Specialised Safety Development Limited

Health & Safety Policy - Statement of intent

Specialised Safety Development Limited is a Specialist Provider in the field of Conflict Management with specific expertise and competence in the field of Occupational Physical Skill development, construction, analysis, assessment and delivery.

The company recognises that Conflict Management is an occupational activity that many individuals undertake and will take all steps, so far as is reasonably practicable to eliminate or reduce the risk of violence to its lowest possible level through physical security measures, safe working practices and competent training provision. The risk assessment process will determine specific appropriate control measures for our training and service delivery, which is a management function.

This is not however a substitute for local and / or specific organisational risk assessment and risk management / control process to determine appropriate local measures, which is the overall responsibility and accountability of the management function of the commissioning agency.
